Question 3.4: Plot the supply curve using a line plot.

```
In [ ]: ...  
        plt.xlabel('quantity')  
        plt.ylabel('price');
```

Question 3.8: Is supply elastic or inelastic? How does it compare to the price elasticity of demand?

Question 5.3: From our analysis, is it effective for the government to tax short-term rentals? Provide brief justification with your answer.

Hint: there is no correct answer or approach here. One approach could be to look at the graph above and to estimate the economic impact of such a tax. Another approach could be to examine the elasticities of demand and/or supply.
